Onyx Black

Control your comfort
- Backlit controllers
- Scheduling options
- Optional covers available – silver, chrome, brushed
- Simple to use screens

Plasma Quad Technology inhibits SARS-CoV-2 by 99.8%*

works with Hey Google

Eliminates air contaminants

Plasma Quad Plus Technology neutralises, viruses, bacteria, allergens and other contaminants.

Intuitive

Built-in 3D i-see sensor automatically detects room occupancy and body temperature.

Dual Barrier Coating

Prevents dust, dirt and grease accumulation in the unit.

The presence and position of anyone in the room is detected by the built-in infra-red sensor's 360° sweep of the room. By mapping the room temperatures, it adjusts the air conditioning to the optimum levels of temperature and comfort without unpleasant draughts.

The Premium series built-in Wi-Fi interface allows for total control and monitoring from anywhere in the world, via the Mitsubishi Electric MELCloud app. Voice control works with Hey Google and is compatible with Amazon Alexa.
